HAJJ

In the Old Testament's Book of Ezekiel (Chapters 40 through 47) is the detailed account of Hajj performed by Prophet Ezekiel [P] like Prophet Dawood (David) [P] as mentioned in the Book of Psalms 84-6 :

" Who [David (P)] passing through the valley of Bacca (Mecca) ..make it a well (of Zam Zam) "

Chapter 47 of book of Prophet Ezekiel describes the Well of ZAMZAM

Proof that the Israelite Prophets used to perform the **ANNUAL PILGRIMAGE** is clearly stated in the Bible in Genesis 47:8-9

"Pharaoh asked him, 'How old are you?' And Jacob said to Pharaoh, 'The years of my pilgrimage are a hundred and thirty.."

DURJA RAO:

What do you think of the existence of the scientific information in the Holy Quran?
how could Prophet Muhammad have known about this facts fourteen centuries ago?
This is definitely not simple human knowledge. A normal human being cannot explain this phenomenon in that much detail. So, I thought the information must have come from a supernatural source

PROFESSOR T.V.N PERSAUD:

It seems to me that Muhammed was a very ordinary man, he couldn't read, didn't know how to write, in fact he was an illiterate. We are talking about 1400 years ago, you had some illiterate person making **profound statements that are amazingly accurate**, of a scientific nature.

Glo of nie, U was Moslem gebore

Die feit dat meer en meer mense hul weg na Islam vind, ten spyte van die meedoënlose propaganda, onberispelike verkeerde inligting en volstrekte vooroordeel daaroor, hou my nooit op om my te verbaas nie. Hoe navigeer hierdie mense in die duisternis om die lig van Islam te vind, ten spyte van al die struikelblokke in die pad? Die antwoord is dat ons Skepper elkeen van ons 'n leidende lig gegee het, 'n suiwer, onbesmette, aangebore natuur wat die "Fitrah" genoem word. Anders as Christene wat glo in die leer van Oorspronklike Sonde en beweer dat elke baba gebore is met die sonde van Adam se ongehoorsaamheid aan God, glo Moslems dat elke kind in 'n staat van suiwerheid gebore word waar dit sy Skepper herken en natuurlik aan Sy onderdanigheid is wette. In sy boek Die Grondbeginsels van Islamitiese Monoteïsme skryf Abu Ameenah Bilaal Philips: Net soos 'n kind se liggaam onderwerp aan die fisiese wette wat Allah in die natuur gestel het, lê sy siel natuurlik ook die feit dat Allah sy Heer en Skepper is. Maar sy ouers probeer om dit op hul eie manier te volg en die kind is nie sterk genoeg in die vroeë stadiums van sy lewe om sy ouers te weerstaan of te weerstaan nie. Die godsdiens, wat die kind op hierdie stadium volg, is een van persoonlike en opvoeding en Allah hou dit nie ter verantwoording van hierdie godsdiens nie.
